

YAHTZEE RULES & REFERENCE

OBJECTIVE

Score the most points by rolling 5 dice to make specific combinations over 13 rounds.

ON YOUR TURN

1. Roll 1: Roll all 5 dice. Keep any you want to save; re-roll the rest.
2. Roll 2: Re-roll any or all dice (even those you kept previously).
3. Roll 3: Final re-roll of any or all dice.
4. Score: You **MUST** fill in one box on your scorecard. If you cannot meet the requirements for a box, you must take a "0" in an empty box.

UPPER SECTION SCORING

Goal: Get a total score of at least 63 in this section to earn a 35-point Bonus.

Category	Requirement	Score
Aces (Ones)	At least one 1	Sum of all 1s
Twos	At least one 2	Sum of all 2s
Threes	At least one 3	Sum of all 3s
Fours	At least one 4	Sum of all 4s
Fives	At least one 5	Sum of all 5s
Sixes	At least one 6	Sum of all 6s

LOWER SECTION SCORING

Category	Requirement	Score
3 of a Kind	At least 3 dice same face	Sum of ALL 5 dice
4 of a Kind	At least 4 dice same face	Sum of ALL 5 dice
Full House	3 of one number, 2 of another	25 Points
Small Straight	4 sequential numbers	30 Points
Large Straight	5 sequential numbers	40 Points
Yahtzee	5 dice of the same face	50 Points
Chance	Any combination	Sum of ALL 5 dice

YAHTZEE BONUS & JOKER RULES

If you roll a Yahtzee and your "Yahtzee" box is **ALREADY** filled with 50:

- Mark 100 bonus points in the bonus section.
- Joker Rule: You must also fill a scoring box for this turn. First, try to fill the corresponding number in the Upper Section. If that is full, you may fill ANY open box in the Lower Section (for full points).

NOTE: If your original Yahtzee box was filled with a 0, you do **NOT** get the 100 point bonus, but you must still follow the Joker Rule.

GAME END

The game ends after 13 rounds when all boxes are filled.

Total Score = Upper Total + Upper Bonus (if >63) + Lower Total + Yahtzee Bonuses.
